

### **CREDE online GCP REFRESHER course**

For those who prefer online learning over our legendary face to face GCP Refresher Course, we have developed an exciting online course:

- the whole course can be completed online
- it can be completed all at once or you can return and resume as many times as you need to
- covers all the basics, but also has stimulating extra information and resources
- your GCP certificate can be downloaded immediately upon successful completion of the course
- average completion time is likely to be between 2 and 4 hours in total

*CREDE's online course in Good Clinical Practice (GCP) meets all the criteria for certified refresher training. The refresher certificate is valid for 3 years.*

*We also have accreditation for CPD points (8 points, of which 2 are ethics points).*

The steps toward completing the Online GCP course:

1. Use the link and unique code to the online registration form that we've sent you. If you don't have the link yet, contact the CREDE office ([admin@crede.co.za](mailto:admin@crede.co.za) / tel. 0609550417)
2. Once registration is complete, invoicing and payment arrangements will be made.
3. The course participant receives an email to confirm the admin is done and that the course will be activated.
4. They will receive an automated email from the system ("TalentLMS") containing a unique username, password, and the internet link. Follow the link, log in and VOILA, you're good to go!

**N.B. The course participant has 5 working days in which to complete the course from the time of activation. After this period the username expires.**

5. After the last page of the last section has been completed successfully and all tests passed, a unique GCP certificate will be available to download immediately.
6. For those who require CPD certification, the CPD certificate will come separately from one of the HPCSA boards within 2 weeks (if not, please let us know).

**Cost: R1325.00 + R198.75(VAT) = R1 523.75**

PLEASE NOTE: The course covers -

- SA GCP 3rd edition, 2020
- The ICH E6 GCP (R2) Investigator Site Training meets the Minimum Criteria for ICH GCP Investigator Site Personnel Training identified by TransCelerate BioPharma as necessary to enable mutual recognition of GCP training among trial sponsors.
